

Commercial Air Conditioners 2017/2018

Rooftop Package
R410A 60Hz

Commercial Air Conditioner Division

Add.: Headquarters Building, 6 Avenue, Shunde, Foshan, Guangdong, China

Postal code: 528311

Note: Product specifications change from time to time as product improvements and developments are released and may vary from those in this document.

COLDPOINT

A leading producer of consumer appliances and provider of heating, ventilation and air conditioning solutions. Has continued with the tradition of innovation upon which it was founded, and emerged as a global leader in the HVAC industry. A strong drive for advancement has created a groundbreaking R&D department that has placed Cold Point at the forefront of a competitive field. Through these independent efforts and joint cooperation with other global enterprises.

There are three production bases: Shunde, Chongqing and Hefei.

MCAC Shunde: 38 product lines focusing on VRF, Split Products, Heat Pump Water Heaters, and AHU/FCU.

MCAC Chongqing: 14 product lines focusing on Water Cooled Centrifugal/Screw/Scroll Chillers, Air Cooled Screw/Scroll Chillers, and AHU/FCU.

MCAC Hefei: 11 product lines focusing on VRF, Chillers, and Heat Pump Water Heaters.

MIDEA GROUP
FORTUNE GLOBAL
FORTUNE
500

- 2015 BOSCH in VRF production and Siix in smart control
- 2014 Launched the rooftop package ClimaCreator globally
- 2010 Built the 3rd manufacturing base in Hefei
- 2008 Launched the rooftop package ClimaMaster globally
- 2007 Won the first centrifugal chiller project overseas
- 2006 Launched the first VSD centrifugal chiller
- 2004 Acquired MGRE entered the chiller industry
- 2001 Partnered with Copeland to develop the digital scroll VRF system
- 2000 Developed the first inverter VRF With Toshiba
- 1999 Entered the CAC field

Introduction

package air conditioners are designed and manufactured to off the all-in-one solutions for large halls, ware- houses or other applications.
package air conditioner are totally two series: ClimaCreator series and ClimaMaster series.

Series					
R410A ClimaCreator series		220V 3Ph~ 60Hz	Tropical (T3)	Cooling only	7.5RT~25RT
R410A ClimaMaster series		208~230V 1Ph~ 60Hz	T1	Cooling only	3RT~5RT
		208~230V 3Ph~ 60Hz	T1	Cooling only	5RT
		220V 3Ph~ 60Hz	Tropical (T3)	Cooling only	5RT~20RT
				Cooling only+EHK	6.2RT~20RT
		380~415V 3Ph~ 60Hz	Tropical (T3)	Cooling only	6.2RT~30RT
				Cooling only+EHK	6.2RT~30RT

Notes:
1. Product's cooling capacity as perspecification.

General Features

Convenient for unit selection

Wide cooling capacity range»

- ❖ Wide cooling capacity range, from 59000Btu/h to 358000Btu/h.

Design flexibility»

- ❖ Compact design.
- ❖ Flanges of air flow inlet and outlet as standard.
- ❖ It is suitable for installation in rooftop and ground.

ClimaMaster series

ClimaCreator series

Outstanding reliability

Durable construction»

- ❖ Pre-painted exterior cabinet panels pass 1000 hours Salt Spray Test for durability.
- ❖ Weather-resistant construction with capped steams and sloped top panels.
- ❖ G90 galvanized heavy gauge plate conforming to ASTM-A-653.

Customized anti-corrosion treatment »

- ❖ The rooftop package air conditioners with special anti-corrosion treatment are suitable for seaside areas or the areas exposed to acidic substances.

- ❖ Special anti-corrosion treatment of heat exchanger provides 5 to 6 times greater resistance against acid rain and salt corrosion.
- ❖ All PCB parts in the unit are coated with double-side moisture proof paint. The outer side of electric box metal cover is spray-painted.
- ❖ All screws are anti-rust.
- ❖ Casings of the unit and motors are anti-rust.

Reliable scroll compressor»

- ❖ Famous brand compressor: Copeland, Hitachi, Danfoss, etc. More reliable.
- ❖ No complex internal suction and discharge valves for quieter operation and higher reliability.
- ❖ Compact, light-weight design, and fewer moving parts design.

Multi-protection design»

- ❖ Multi-measure ment to ensure units operate normally and reliably:
System current protection, High/low pressure switch protection, Temperature sensor on/off protection, etc.
- ❖ Three-phase protector can be customized.

HP/LP switch

Temperature sensor

Easy to installation

Convenient for wires connection»

- ❖ Removable access door on the electric box. It is easy to move the cover of the electric box.
- ❖ Only connect the wires of power supply, and no need to connect any signal wires.

Easily connect the drainage pipe»

- ❖ Reserved external drainage port, quickly and accurately connect the rubber drainage pipe.

Easy access to maintenance

External pressure gauge ports

- ❖ The unit provides external pressure gauge ports for convenient and fast checking system pressure without removing the panel.

Easy access doors design

- ❖ Removable the access doors on the filter, fan motor, and electric box sections.
- ❖ Provide convenient access to system components for maintenance and service.

System self-diagnostic

- ❖ Press the 'Check' button, the LED display in PCB board of the unit will display the normal checking code.
- ❖ If the unit is in running with abnormal operation, the LED display will show the error code.

Washable filter

Flexible choice of accessories

Controllers

- ❖ Wired controller as standard.
- ❖ Besides standard wired controller, others can be chosen too.

- ❖ Other brand thermostat can be matched as optional solution.

- ❖ Centralized control function can be achieved through the centralized controller as optional. MD-NIM01 should be connected between rooftop package units and centralized controller.

Multi-accessories

Snap ring	√		√	
Drainage pipe	√		√	
Anti-corrosion fin		√		√
EHK (Electric Heater Kits)		√		√
Network interface module		√		√
Three-phase protector		√		√

Mechanical specification

General

The units are convertible airflow. All units are factory assembled, internally wired, fully charged refrigerant and 100% run tested to check cooling and heating operation, fan and blower rotation, and control sequence before leaving the factory. Wiring internal to the unit is colored and numbered for simplified identification. The unit is provided with an integral weather resistant control panel.

Casing

Unit casing is constructed of Zinc coated, heavy gauge, galvanized steel. Exterior surfaces are cleaned, G90 galvanized heavy gauge plate conforming to ASTM A 653, followed by baked on electrostatic polyester dry powder coat paint on all external panels, completely weatherized for outdoor installation and properly reinforced and brazed. Salt Spray Test for steel sheet under 1000 hours, specially treated can be up to 2000 hours and even more. Cabinet construction allows for all maintenance. Service panels are removed easily and reinstalled by removing bolts. All panels and top covers indoor side of the unit are insulated with 16mm, foam-faced, closed-cell insulation. The unit has provisions for forklift and crane lifting, with forklift capabilities on four sides of the unit.

Compressors

All units have direct-drive, hermetic, scroll type compressors with centrifugal type oil pump. Motor is suction gas-cooled and has a voltage utilization range of plus or minus 10 percent of unit nameplate voltage. Internal overloads are provided with the scroll compressors. Compressors used in Rooftop Package unit are hermetically sealed reciprocating type. They are equipped with a crankcase heater as standard. The compressors, incorporating a built-in muffler, are mounted on spring within a heavy gauge steel housing to give a low noise level. The unit contains the best compressor technology available to achieve the highest possible performance. Dual compressors are outstanding for humidity control, light load cooling conditions and system back-up applications.

Controls

The unit is completely factory-wired with necessary controls and terminal block for power wiring. The unit provides an external location for mounting a fused disconnect device. Microprocessor controls provide for all 24V control functions. The precision control makes all heating, cooling, or ventilating decisions in response to electronic signals from sensors measuring indoor and outdoor temperatures. The control maintains accurate temperature control, minimizes drift from set point, and provides better building comfort. A centralized micro-processor provides a higher level of machine protection.

Coils

Internally finned, copper tubes mechanically bonded to a configured hydrophilic aluminum fin is standard. Coils are leak tested under 3100KPa (450 psig) at the factory to ensure the pressure integrity.

Electronic thermostats

General information: A dedicated electronic thermostat is supplied with unit controls as standard. It controls one or two stage cooling applications. The thermostat normally displays room temperature and mode of operation. It also allows to select continuous fan operation, or has the fan on intermittent operation with the equipment. Finally, it displays the status of unit, thus providing maximum information for the user.

Product lineups

Tropical (T3) Application, Cooling Only Type

Nominal ton*		7.5	10	15	20	25
220V, 3Ph~, 60Hz	 Side-discharge	●

Notes:
* Nominal ton only for reference.
Cooling or heating capacity as per specifications.

Adjustable pulley >>

Through changing the working pitch diameter of the pulley mounted on drivershaft, in turn the revolutions per minute of the driven shaft will increase or decrease to change air volume.

Air intake filter & EHK as optional>>

- ❖ Three thickness filter: 0.5inch, 1inch and 2inch;
- ❖ Two kinds of filter materials: Metal or Nylon + Metal frame.
- ❖ EHK (Electric Heater Kits) and control box can be customized.

- Notes:
- Cooling capacity test condition (1): Outdoor ambient temperature: 35°C, indoor temperature 26.7°C DB/ 19.4°C WB;
Cooling capacity test condition (2): Outdoor ambient temperature: 46.1°C, indoor temperature 26.7°C DB / 19.4°C WB;
 - Sound values are measured in a semi-anechoic room, at a position 1m in front of the unit and (1 meter + height of unit)/2 above the floor.
 - Specifications are subject to change without prior notice for product improvement.
 - * Nominal ton only for reference.
 - Cooling or heating capacity as per specifications.

Dimensions

ClimaMaster, Tropical (T3) application, 380~415V-3Ph~ -60Hz
MRBT-062CWN1-Y, MRBT-062EWN1-Y
(Units: mm)

ClimaMaster, Tropical (T3) application, 380-415V-3Ph~ -60Hz
MRBT-075CWN1-Y, MRCT-075EWN1-Y, MRBT-085CWN1-Y, MRCT-085EWN1-Y
(Units: mm)

ClimaMaster, Tropical (T3) application, 380-415V-3Ph~ -60Hz
MRBT-100CWN1-Y, MRCT-100EWN1-Y
(Units: mm)

ClimaMaster, Tropical (T3) application, 380-415V-3Ph~ -60Hz
MRBT-125CWN1-Y, MRCT-125EWN1-Y, MRBT-150CWN1-Y, MRCT-150EWN1-Y
(Units: mm)

ClimaMaster, Tropical (T3) application, 380-415V-3Ph~ -60Hz
MRBT-175CWN1-Y, MRCT-175EWN1-Y
(Units: mm)

ClimaMaster Series

42

Controllers

Wired controllers >>

KJR-12B/dP(T)-E

- ❖ It is easy and convenient to select cooling, heating and fan operation mode.
- ❖ Digital display, setting temperature in 1°C.
- ❖ Controller with Follow Me function, it helps making the room environment comfortable.
- ❖ Daily timer function.

KJR-23B

- ❖ 4-minute delay function. The restarted compressor can be delayed for 4 minutes by this controller.
- ❖ Filter-monitor function. When the run-time of operations reaches certain hours, the Filter-change Indicator of controller will flash to remind checking the filter of unit.
- ❖ Easy to change °C and °F in site.

KJR-25B

Centralized controllers >>

CCM30

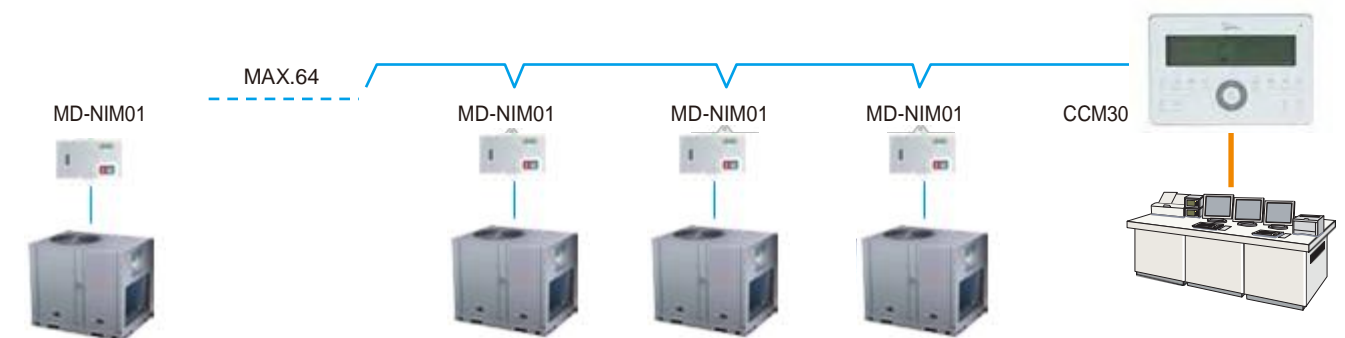

MD-NIM01

- ❖ Centralized control function. It is a multifunctional device which is able to control up to 64 units.
- ❖ It provides a superior way to manage the units. Users are able to make their own choice from locking wired controller, running mode, wireless remote controller or the CCM30's keyboard.

- ❖ The control object can be either single or all, making the controlling operation convenient. It also easy to check all units status.
- ❖ It is able to bridge up to 64 units to the network monitoring system and the building managements system.

- ❖ Two structures of centralized controller design, easy installation.

Structure A

Structure B

Structure A (Model No. CCM30/BKE-A) should be embedded into the wall and structure B (Model No. CCM30/BKE-B) doesn't need.
